Lawaljnranalyst@gmail.com

45, Mosadoluwa Community,
Oke Baale, Osogbo, Osun State.

PROFILE

Results-oriented Data Analyst candidate with a strong foundation in statistical analysis and data visualization. Currently enrolled in specialized data analytics training and possessing high-level proficiency in Microsoft Excel, Power BI and SQL. Proven ability to thrive in fast-paced environments and deliver accurate insights on short-term project deadlines.

EXPERIENCE

2025 - 2026

DataSlid Tech Academy

Data Analyst

- Identifying and fixing errors, handle missing values, and organize "messy" data into a structured format for analysis.
- Creating clear charts, graphs, and interactive dashboards to communicate findings to non-technical stakeholders.
- Using languages like SQL to query, filter, and extract specific information from large storage systems.
