

LAWAL JAMIU O.

PROFILE

Results-oriented Data Analyst candidate with a strong foundation in statistical analysis and data visualization. Currently enrolled in specialized data analytics training and possessing high-level proficiency in Microsoft Excel, Power BI and SQL. Proven ability to thrive in fast-paced environments and deliver accurate insights on short-term project deadlines.

EDUCATION

Kwara State University, Malete / 2025

B.Sc | Public Health

EXPERIENCE

Students | DataSlid Tech Academy

Data Analyst | 2025 – present

- ▶ Learning to identify and fix errors, handle missing values, and organize "messy" data into a structured format for analysis.
- ▶ Creating clear charts, graphs, and interactive dashboards to communicate findings to non-technical stakeholders.
- ▶ Learning to use languages like SQL to query, filter, and extract specific information from large storage systems.

Creative Designer | DamPhil ICT Institute

Graphics Design | 2018 - 2022

- ▶ Using imagery and creative assets to tell a brand's story, aiming to connect emotionally with the target audience and drive engagement
- ▶ Translating complex business ideas, data, and messages into clear, easy-to-understand visuals (such as infographics, logos, and layouts).
- ▶ Ensuring all visual materials remain consistent in style, color, and tone to build professional credibility and brand recognition.
